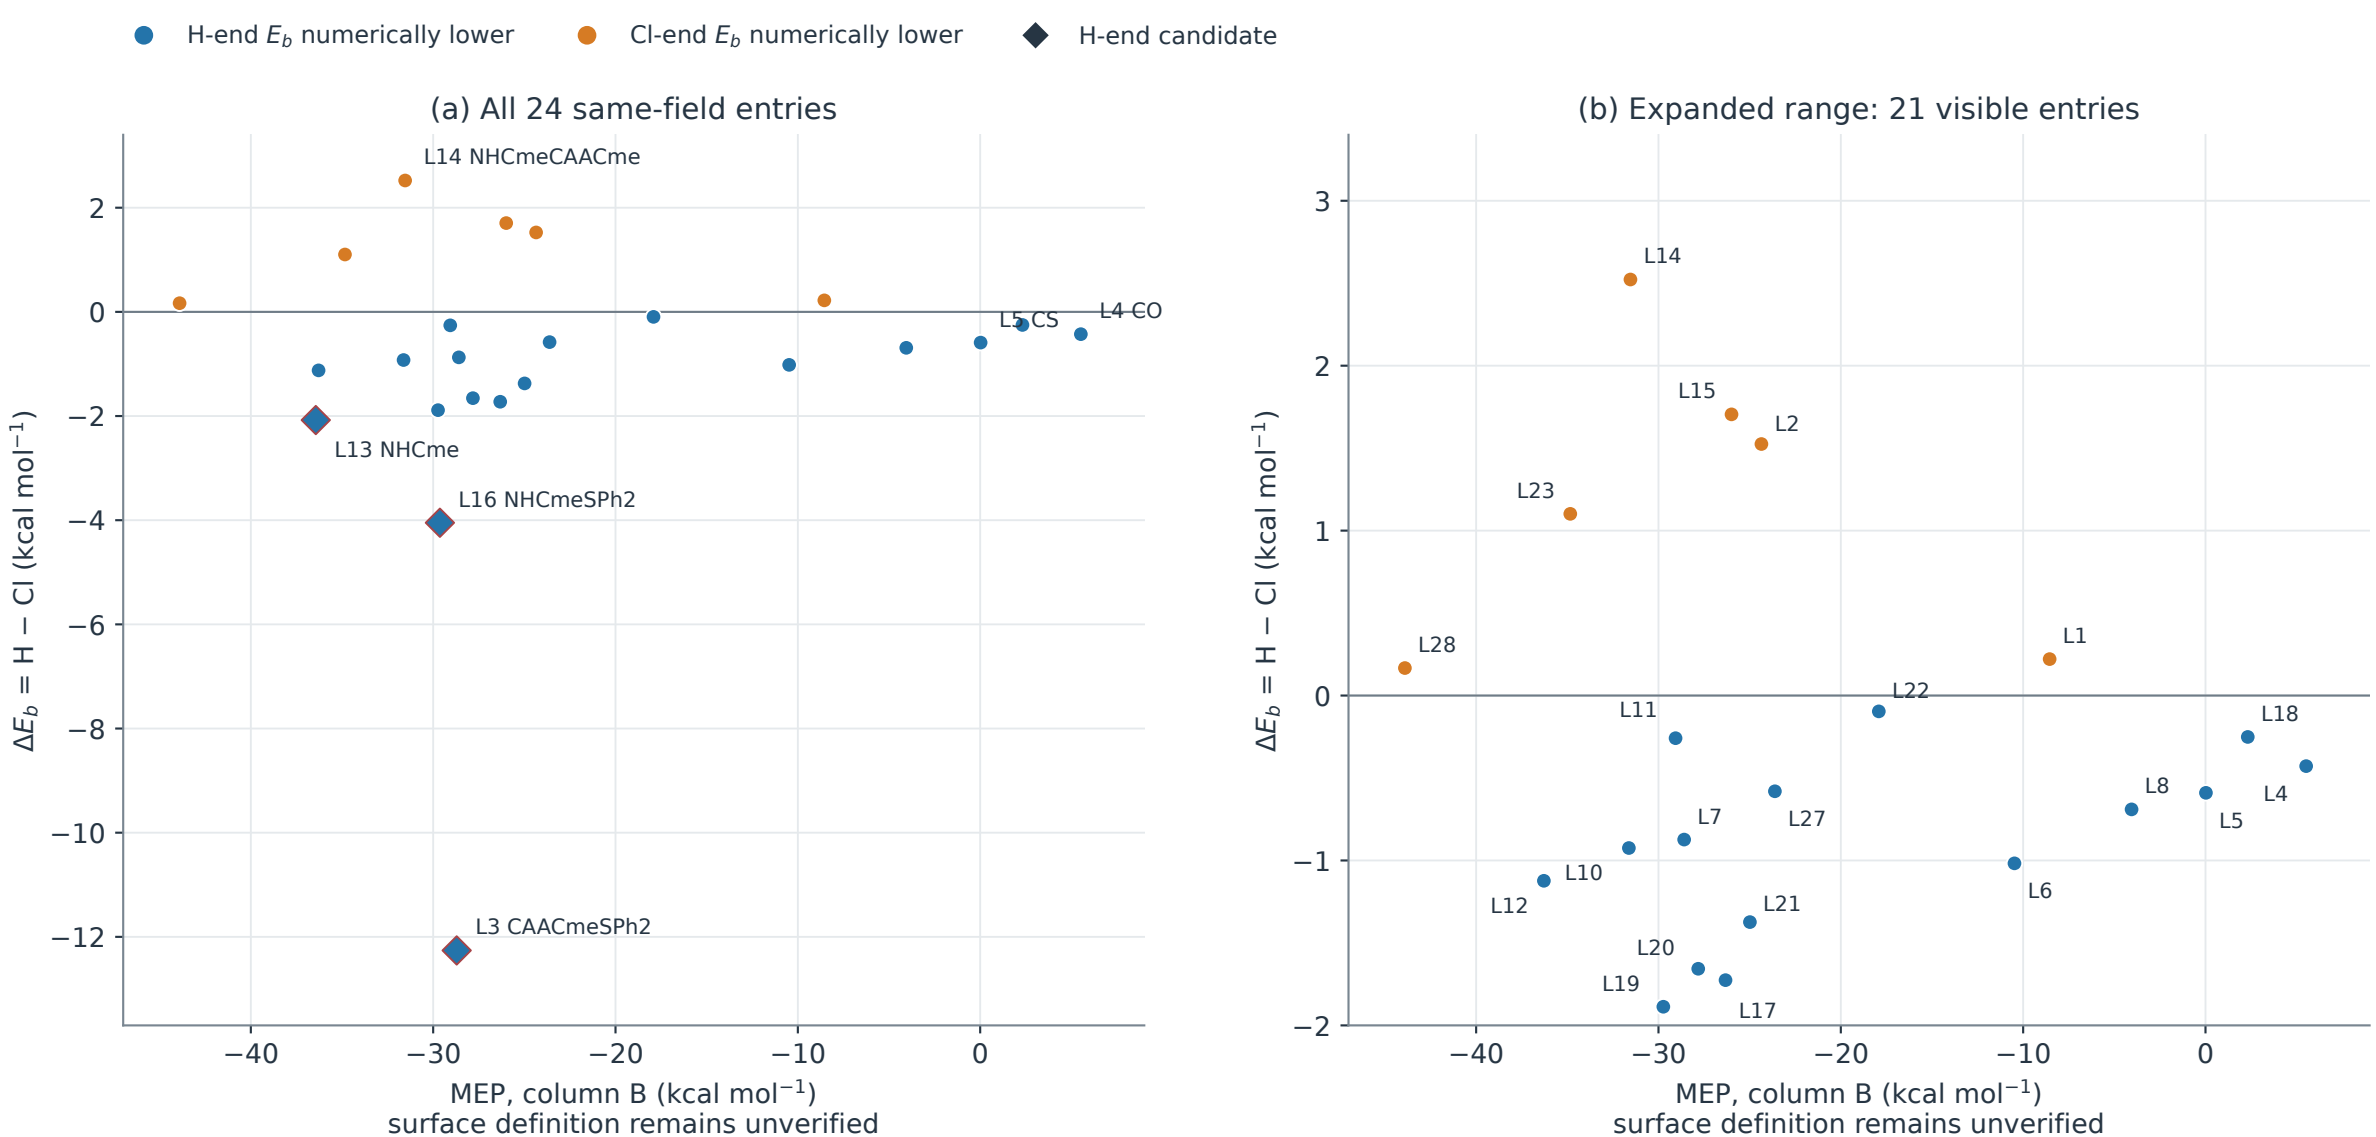
S2 Exploratory MEP and paired-energy comparison

Provisional data audit | 24 column-B values only | four column-C-only systems excluded



Excluded column-C-only systems: N2CS (L9), SCCAACme (L24), SCNHCme (L25), SCPPh3 (L26). No cross-column conversion is made.
Panel (b) changes only the displayed y-range; H-CAACmeSPh2, H-NHCme and H-NHCmeSPh2 remain visible in panel (a).
This is a descriptive co-variation view. No regression, causal relation, or intrinsic donor-strength ranking is asserted.
